Damaged Item Standard Operating Procedure

Document: SC_Damaged_Item_SOP.pdf
Version: 1.2
Effective from: 2024-01-01
Effective to: No end date
Status: Current

1. Scope

This SOP applies to customer claims that an item arrived damaged or became damaged in normal use.

2. Damage evidence

The customer must upload at least one photo that shows the damage, within 48 hours of delivery.

The photo must show the damaged area and the order label.

A claim without evidence is recorded as 'no evidence attached'.

3. Checks

Check that the item SKU matches the order item.

Check that the claim is not a duplicate of an open return for the same order item.

Check whether the item is final sale.

4. Conditions for manual review

Every final-sale item with a damage claim must be reviewed manually, even when evidence is attached.

Any claim with a duplicate return request must be reviewed manually.

The assistant may summarise the evidence. Staff make the decision.
